Cairn

## Manual

I say it bluntly. If you, young devotees, use the larvae as those who came before you used them, and make on the walls of our holy vaults hideous series frozen for eternity, then the venal vulpe still has beautiful days ahead of her.
Thus spake Arna.

I'm the one who follows the path of the vixen. My kingdom extends over the remains of the ancient belief, and my empire grows under its roots.

I live for the one who decided to stay. The great tree of my temple raises its foliage towards the sun, and the roots plunge into the springs.

I lost myself in the abyss, and I found the one who guards the door between the dead and the living. If you find me, know that there is no turning back.
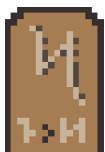

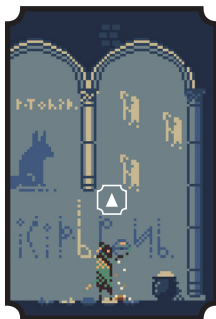

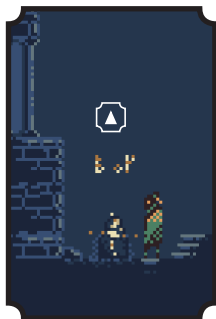

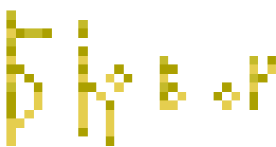

Controls

Push (A) to jump and validate dialogues.

Push [▲] to interract with characters or artifacts when an indication appears at the top, and to pass the open doors.

The steles allow you to record your path.

Larvae

Llwyn closes her clawed hands over the twisting larvae.
«Don't hurt them !» Baedd said. «Stop that !» Hydd said.
Llwyn smirked. « Dig my tomb now, and you will have the grubs
that make up your names and more. »
Thus spake Arna

Notes

Menus

Push (select) to have access or exit the collectibles menus.

Each menu is unlocked when you find your first artifact reffered to.

Push (B) to navigate between the menus.

Push (A) to select item to consult.

Push (start) to access or exit the inventory.

Some artifacts are wearable and give you special skills.

Push (A) to equip the selected item.

Enigmas

One throws the dots and one throws the lines for the divination, and the lines form the arcs that Baedd uses to hunt, and they recall the long legs of Hydd, who ceases so much and so much to move that it changes to the alder under which we once stood, and the dots hide in the crevices like Llwyn in the temple, which she snatches from the goddess this day.
*Thus spake Arna.*

Push (A) to open the larvae menu.

Push ◄ ► to move between the items.

Push (A) to put the selected item on the enigma section.

Push (B) to exit.
